The POULTRY FEDERATION

ABOUT

The Poultry Federation (TPF) is a multi-state trade organization representing the poultry and egg industry in Arkansas, Missouri and Oklahoma. TPF promotes and protects the interests of the industry and is a unified voice before the state governments. TPF membership includes every segment of the poultry and egg industry including, but not limited to, feed milling, live production, hatchery, processing, packaging, commercial egg, marketing, and all service and support activities. The Arkansas Poultry Federation was established in 1954 in Little Rock, Arkansas. In 1998, the office consolidated with Oklahoma and Missouri and became The Poultry Federation (TPF). We have 24 poultry and egg

company members and over 380 members in the Allied division of our organization. Our Allied members are vendors who supply services and/or products to the poultry and egg industries.

The mission of The Poultry Federation is to promote and protect all poultry interests relating to production, distribution, merchandising and consumption of poultry and poultry products; to disseminate information relating to the various phases of the poultry industry in order to improve and expand markets; to increase efficiency in production and marketing; to encourage and support research in production and marketing of poultry; and to encourage and support youth programs in poultry work.
